Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary

Application No.

10/613,320

Applicant(s)

BERNARDON ET AL.

Examiner

Laura L. Stockton, Ph.D.

Art Unit

1626

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 07 July 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-21 and 23-28 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☐ Claim(s) _____ is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☒ Claim(s) 1-21 and 23-28 are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
 - ☐ Certified copies of the priority documents have been received in Application No. _____.
 - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

Art Unit: 1626

DETAILED ACTION

Claims 1-21 and 23-28 are pending in the application.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I, claims 1-17, 20, 21 and 23-26, drawn to biphenyl compounds of formula (I) wherein R_1 is $-\text{CH}_3$ and R_2 and R_3 do not form a ring and compositions, classified in class 570, various subclasses.

Group II, claims 1-17, 20, 21 and 23-26, drawn to biphenyl compounds of formula (I) wherein R_1 is $-\text{CH}_2\text{OH}$ and R_2 and R_3 do not form a ring, and compositions, classified in class 568, various subclasses.

Group III, claims 1-17, 20, 21 and 23-26, drawn to biphenyl compounds of formula (I) wherein R_1 is $-\text{OR}_8$ and R_2 and R_3 do not form a ring, and compositions, classified in class 568, various subclasses.

Art Unit: 1626

Group IV, claims 1-17, 20, 21 and 23-26, drawn to biphenyl compounds of formula (I) wherein R_1 is $-\text{COR}_9$, R_9 is H and R_2 and R_3 do not form a ring, and compositions, classified in class 568, various subclasses.

Group V, claims 1-17, 20, 21 and 23-26, drawn to biphenyl compounds of formula (I) wherein R_1 is $-\text{COR}_9$, R_9 is lower alkyl and R_2 and R_3 do not form a ring, and compositions, classified in class 568, various subclasses.

Group VI, claims 1-17, 20, 21 and 23-26, drawn to biphenyl compounds of formula (I) wherein R_1 is $-\text{COR}_9$, R_9 is $-\text{OR}_{14}$ and R_2 and R_3 do not form a ring, and compositions, classified in class 560, various subclasses.

Group VII, claims 1-17, 20, 21 and 23-26, drawn to biphenyl compounds of formula (I) wherein R_1 is $-\text{COR}_9$, R_9 is $-\text{Nr}'\text{r}''$ and R_2 and R_3 do not form a ring, and

Art Unit: 1626

compositions, classified in class 564, various subclasses.

Group VIII, claims 1-18, 20, 21 and 23-26, drawn to biphenyl compounds of formula (I) wherein R_1 is $-CH_3$ and R_2 and R_3 together form a 5-6 membered ring that does not contain a heteroatom, and compositions, classified in class 570, various subclasses.

Group IX, claims 1-21 and 23-26, drawn to biphenyl compounds of formula (I) wherein R_1 is $-CH_2OH$ and R_2 and R_3 together form a 5-6 membered ring that does not contain a heteroatom, and compositions, classified in class 568, various subclasses.

Group X, claims 1-21 and 23-26, drawn to biphenyl compounds of formula (I) wherein R_1 is $-OR_8$ and R_2 and R_3 together form a 5-6 membered ring that does not contain a heteroatom, and compositions, classified in class 568, various subclasses.

Group XI, claims 1-21 and 23-26, drawn to biphenyl compounds of formula (I) wherein R_1 is $-COR_9$, R_9 is H

Art Unit: 1626

and R_2 and R_3 together form a 5-6 membered ring that does not contain a heteroatom, and compositions, classified in class 564, various subclasses.

Group XII, claims 1-21 and 23-26, drawn to biphenyl compounds of formula (I) wherein R_1 is $-\text{COR}_9$, R_9 is lower alkyl and R_2 and R_3 together form a 5-6 membered ring that does not contain a heteroatom, and compositions, classified in class 568, various subclasses.

Group XIII, claims 1-21 and 23-26, drawn to biphenyl compounds of formula (I) wherein R_1 is $-\text{COR}_9$, R_9 is $-\text{OR}_{14}$ and R_2 and R_3 together form a 5-6 membered ring that does not contain a heteroatom, and compositions, classified in class 560, various subclasses.

Group XIV, claims 1-21 and 23-26, drawn to biphenyl compounds of formula (I) wherein R_1 is $-\text{COR}_9$, R_9 is $-\text{Nr}'\text{r}''$ and R_2 and R_3 together form a 5-6 membered ring

Art Unit: 1626

that does not contain a heteroatom, and compositions, classified in class 564, various subclasses.

Group XV, claims 1-21 and 23-26, drawn to biphenyl compounds of formula (I) wherein R_2 and R_3 together form a 5-6 membered ring that contains a heteroatom, and compositions, classified in class 549, various subclasses.

Group XVI, claim 27, drawn to a method of use, classified in class 424, various subclasses.

Group XVII, claim 28, drawn to a method of use, classified in class 514, various subclasses.

The inventions are distinct, each from the other because of the following reasons: the products of Groups I-XV differ materially in structure and element so much so as to be patentably distinct. In addition, a reference that anticipates one group may not even render obvious the other. Inventions of Groups I-XV and Groups XVI and XVII are related as product and

Art Unit: 1626

process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the process for using the product can be practiced with a materially different product such as the product of Group I or the product of Group XIV, etc.

Because these inventions are distinct for the reasons given above, have acquired a separate status in the art as shown by their different classification, and the search required for Group I, for example, is not required for Group II, restriction for examination purposes as indicated is proper. Therefore, it would impose an undue burden on the Examiner and the Patent

Art Unit: 1626

Office's resources to examine the instant application if unrestricted.

The above groups themselves are inclusive of patentably distinct subject matter. Accordingly, along with the election of one of the above groups, the following action is also taken.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species (e.g., Example number, page number and structural depiction) from whichever group is ultimately elected, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record

Art Unit: 1626

showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Upon the election of a single disclosed species (e.g. Example, page number and structural depiction), a scope of the elected invention that has been examined, inclusive of the elected species, will be identified by the Examiner for examination.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

The examiner has required restriction between product and process claims. Where applicant elects claims directed to the product, and a product claim is subsequently found allowable, withdrawn process claims that depend from or otherwise include all the limitations of the allowable product claim will be rejoined in accordance with the provisions of MPEP § 821.04. **Process claims that depend from or otherwise include all the limitations of the patentable product will be entered as**

Art Unit: 1626

a matter of right if the amendment is presented prior to final rejection or allowance, whichever is earlier.

Amendments submitted after final rejection are governed by 37 CFR 1.116; amendments submitted after allowance are governed by 37 CFR 1.312.

In the event of rejoinder, the requirement for restriction between the product claims and the rejoined process claims will be withdrawn, and the rejoined process claims will be fully examined for patentability in accordance with 37 CFR 1.104. Thus, to be allowable, the rejoined claims must meet all criteria for patentability including the requirements of 35 U.S.C. 101, 102, 103, and 112. Until an elected product claim is found allowable, an otherwise proper restriction requirement between product claims and process claims may be maintained. Withdrawn process claims that are not commensurate in scope with an allowed product claim will not be rejoined. See "Guidance on Treatment of Product and Process Claims in light of *In re Ochiai*, *In*

Art Unit: 1626

re *Brouwer* and 35 U.S.C. § 103(b)," 1184 O.G. 86 (March 26, 1996). Additionally, in order to retain the right to rejoinder in accordance with the above policy, Applicant is advised that the process claims should be amended during prosecution either to maintain dependency on the product claims or to otherwise include the limitations of the product claims. **Failure to do so may result in a loss of the right to rejoinder.**

Further, note that the prohibition against double patenting rejections of 35 U.S.C. 121 does not apply where the restriction requirement is withdrawn by the examiner before the patent issues. See MPEP § 804.01.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laura L. Stockton whose telephone number is (571) 272-0710. The examiner can normally be reached on Monday-Friday from 6:15 am to 2:45 pm. If the examiner is out of the Office, the examiner's supervisor, Joseph McKane, can be reached on

Art Unit: 1626

(571) 272-0699.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).

The Official fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.

A handwritten signature in black ink, appearing to read "Laura L. Stockton", is written over a horizontal line.
